

## SUPER STARTERS

### -SES-5

#### Features-

- Increases compressor starting torque for faster recycling
- For all permanent split capacitor, single phase air conditioning and heat pump systems
- Wired with "Piggy-Back" terminals for easy installation on run capacitors
- Designed for 115 volt thru 277 volt systems
- Mounts easily with either screw or clip

#### General Specifications-

- For all PSC A/C units from 4,000 thru 120,000 BTU's (1/2 thru 10 HP)
- Residential and commercial PSC A/C units and heat pumps
- Can be used on 115 thru 277 VAC units
- For low voltage and hard starting compressors
- Room A/C units
